

## MODULE 1

1.1	Reading and Writing Six-Digit Numbers (without Teens and Zeros)	8
1.2	Writing Six-Digit Number Names and Numerals	10
1.3	Writing Six-Digit Number Names and Numerals (with Teens and Zeros)	12
1.4	Locating Six-Digit Numbers on a Number Line	14
1.5	Working with Place Value	16
1.6	Comparing and Rounding Six-Digit Numbers	18
1.7	Partitioning Six-Digit Numbers in Standard and Non-Standard Forms	20
1.8	Revising the Partial-Products Strategy to Multiply Two-Digit Numbers	22
1.9	Using the Partial-Products Strategy to Multiply Three-Digit Numbers	24
1.10	Reinforcing the Partial-Products Strategy to Multiply Three-Digit Numbers	26
1.11	Using the Partial-Products Strategy to Multiply Four-Digit Numbers	28
1.12	Reinforcing the Partial-Products Strategy to Multiply Four-Digit Numbers	30

## MODULE 2

2.1	Reviewing Addition Strategies	32
2.2	Reviewing Subtraction Strategies	34
2.3	Using the Formal Algorithm to Add Multiple Addends	36
2.4	Comparing Mental Strategies and the Formal Algorithm for Subtraction	38
2.5	Revising Decimal Fractions	40
2.6	Revising Decimal Fractions and Relative Position	42
2.7	Revising the Relationship Between Decimal and Common Fractions	44
2.8	Comparing and Ordering Hundredths	46
2.9	Comparing and Ordering Tenths and Hundredths	48
2.10	Solving Problems Involving Elapsed Time	50
2.11	Selecting and Relating Units of Time	52
2.12	Calculating Elapsed Time	54

## MODULE 3

3.1	Investigating Multiplication Patterns	56
3.2	Revising the Partial-Products Strategy to Multiply Two-Digit Numbers	58
3.3	Using the Associative Property of Multiplication	60
3.4	Factoring to Mentally Multiply Two Two-Digit Numbers	62
3.5	Revising the Double-and-Halve Strategy to Multiply Two Two-Digit Numbers	64
3.6	Comparing Mental Strategies for Multiplication	66
3.7	Solving Word Problems Involving Multiplication	68
3.8	Solving Problems Using Inverse Operations	70
3.9	Solving Word Problems Involving Multiplication and Division	72
3.10	Creating Column Graphs	74
3.11	Introducing Dot Plots	76
3.12	Exploring Dot Plots	78

## MODULE 4

4.1	Extending Multiplication Patterns	80
4.2	Using the Partial-Products Strategy to Multiply Two Two-Digit Numbers	82
4.3	Reinforcing the Partial-Products Strategy to Multiply Two Two-Digit Numbers	84
4.4	Introducing the Formal Multiplication Algorithm (without Regrouping)	86
4.5	Using the Formal Algorithm to Multiply Three- and Four-Digit Numbers by One-Digit Numbers (with Regrouping)	88
4.6	Using the Formal Algorithm to Multiply Two Two-Digit Numbers	90
4.7	Using the Formal Algorithm to Multiply Two- and Three-Digit Numbers	92
4.8	Solving Word Problems Involving Multiplication	94
4.9	Exploring Gross and Net Mass	96
4.10	Calculating Mass of Smaller Objects and Quantities	98
4.11	Constructing and Interpreting a Dot Plot Involving Kilograms	100
4.12	Introducing Tonnes	102

## MODULE 5

5.1	Working with Factors and Multiples	104
5.2	Finding Common Factors and the Highest Common Factor	106
5.3	Finding Common Multiples and the Lowest Common Multiple	108
5.4	Using the Partial-Quotients Strategy to Divide Three-Digit Dividends	110
5.5	Reinforcing the Partial-Quotients Strategy to Divide Three-Digit Dividends	112
5.6	Using the Partial-Quotients Strategy to Divide Four-Digit Dividends	114
5.7	Reinforcing the Partial-Quotients Strategy to Divide Four-Digit Dividends	116
5.8	Solving Word Problems Involving Division	118
5.9	Recording Combinations of Length Units	120
5.10	Introducing Kilometres	122
5.11	Developing a Rule to Calculate the Perimeter of Rectangles	124
5.12	Working with Rules to Calculate the Perimeter of Rectangles	126

## MODULE 6

6.1	Estimating Total Costs of Purchases	128
6.2	Using Mental Strategies to Add and Subtract	130
6.3	Solving Problems Involving Addition and Subtraction (Three-Digit Numbers)	132
6.4	Solving Problems Involving Addition and Subtraction (Four-Digit Numbers)	134
6.5	Creating a Simple Financial Plan	136
6.6	Creating Addition and Subtraction Patterns with Whole Numbers	138
6.7	Creating Addition and Subtraction Patterns with Common Fractions	140
6.8	Creating Addition and Subtraction Patterns with Decimal Fractions	142
6.9	Identifying Categories of Triangles	144
6.10	Analysing Angles in Shapes	146
6.11	Exploring Categories of Quadrilaterals	148
6.12	Examining Regular Polygons	150

## MODULE 7

7.1	Locating Fractions on a Number Line	152
7.2	Revising Mixed Numerals and Common Fractions	154
7.3	Adding Common Fractions (Number Line Model)	156
7.4	Adding Common Fractions and Mixed Numerals (Area and Number Line Models)	158
7.5	Adding Mixed Numerals	160
7.6	Subtracting Common Fractions (Area Model)	162
7.7	Solving Word Problems Involving Common Fractions	164
7.8	Introducing Square Kilometres	166
7.9	Introducing Hectares	168
7.10	Comparing Data Displays	170
7.11	Introducing Line Graphs	172
7.12	Constructing and Interpreting Line Graphs	174

## MODULE 8

8.1	Investigating Division Patterns	176
8.2	Revising Division Strategies (Partitioning)	178
8.3	Partitioning and Regrouping Dividends	180
8.4	Recording Division	182
8.5	Solving Word Problems Involving Division	184
8.6	Introducing Protractors and Degrees	186
8.7	Measuring and Drawing with a Protractor	188
8.8	Estimating and Calculating Angles	190
8.9	Identifying Angle Arms	192
8.10	Reading and Writing 24-Hour Times	194
8.11	Working with Australian Time Zones	196
8.12	Working with International Time Zones	198

## MODULE 9

9.1	Analysing Six-Digit Numbers	200
9.2	Working with Place-Value Patterns to One Million	202
9.3	Reading and Writing Seven-Digit Numbers	204
9.4	Locating Large Numbers on a Number Line	206
9.5	Using Place Value to Compare and Order Seven-Digit Numbers	208
9.6	Reading and Writing Eight- and Nine-Digit Numbers	210
9.7	Working with Millions in Real-life Situations	212
9.8	Exploring the Area of Composite Shapes	214
9.9	Working with the Area of Rectangles	216
9.10	Reviewing Volume and Cubic Centimetres	218
9.11	Analysing Unit Cubes and Measuring Volume	220
9.12	Introducing Cubic Metres	222

## MODULE 10

10.1	Developing the Formal Division Algorithm	224
10.2	Introducing the Formal Division Algorithm	226
10.3	Working with the Formal Division Algorithm	228
10.4	Recording Remainders as Common Fractions	230
10.5	Recording Remainders as Decimal Fractions	232
10.6	Identifying Lines of Symmetry	234
10.7	Exploring Rotational Symmetry	236
10.8	Exploring Symmetry in Quadrilaterals	238
10.9	Examining Patterns Made with Transformations	240
10.10	Enlarging and Reducing Shapes	242
10.11	Reading Scales and Converting Between Millilitres and Litres	244
10.12	Solving Word Problems Involving Capacity	246

## MODULE 11

11.1	Introducing Thousandths (Area Model)	248
11.2	Reading and Writing Thousandths (without Zeros and Teens)	250
11.3	Reading and Writing Thousandths (with Zeros and Teens)	252
11.4	Locating Decimal Fractions on a Number Line	254
11.5	Decomposing Thousandths	256
11.6	Comparing and Ordering Thousandths	258
11.7	Comparing and Ordering Decimal Fractions to Thousandths	260
11.8	Naming Prisms and Pyramids	262
11.9	Analysing the Properties of 3D Objects	264
11.10	Using Nets	266
11.11	Analysing Nets	268
11.12	Drawing 3D Objects from Different Viewpoints	270

## MODULE 12

12.1	Comparing Unit Fractions	272
12.2	Ordering Unit Fractions	274
12.3	Comparing Common Fractions (Same Denominators)	276
12.4	Revising Addition of Common Fractions and Mixed Numerals (Same Denominators)	278
12.5	Revising Subtraction of Common Fractions (Same Denominators)	280
12.6	Revising Equivalent Fractions (Fraction Walls)	282
12.7	Exploring Equivalent Fractions (Linear Model)	284
12.8	Exploring Whole Numbers and Common Fractions	286
12.9	Using Compass Points	288
12.10	Using Map Conventions	290
12.11	Working with Probability and Fractions	292
12.12	Quantifying the Language of Chance on a Scale from 0 to 1	294
<b>Index</b>		296
